## Project 1 - Part 3

Answer all of the questions in your own words, based on the work we have done in class so far.

1. What is CSS?
2. How do we "link" a CSS file to an HTML file? Give the code.
3. Write the CSS code for changing the text color and background color of a webpage.

4. Write the CSS code for changing the size of an image(s).
  
  
  
  
  
  
  
  
  
  
5. List at least 3 other properties/styles that can be changed with CSS. (List up to 10 for extra credit.)
  
  
  
  
  
  
  
  
  
  
6. What are the <header>, <main>, and <footer> sections for?
